Abortion Care Considerations

Parental Consent Laws: In the State of Illinois parental consent laws changed on 06/01/2022. No parental notification is required for abortion care for patients over age 12.

Insurance Coverage for Abortion Care:

- In the State of Illinois, Medicaid and all Medicaid Managed Care Plans (Medicaid MCOs) cover the cost of abortions, as do most private/commercial insurances.
- For private insurances, copay may vary by provider for anesthesia. Ask when scheduling if a copay may be necessary.
- Some organizations will also utilize pending Medicaid, as indicated above.
- For assistance applying to Medicaid, contact your PCC clinic's front desk.

For patients with **Essential Health Partners HMO** and **Oak West HMO**: All abortion care requires a referral from the PCP that has been authorized by the insurance company.

- Please call the PCC Referrals Hotline for all insurance authorization questions: (773) 413-1902.
- Please ask providers to route questions to PCH Care Coordination Manager or Referral Coordination Manager for further assistance.
- At time of publication, the only in-network sites are PPIL on LaSalle and Access Health Center in Downers Grove. Exceptions made for scheduling needs. Must provide LMP, elective vs medically indicated, and indication if non-elective.

A Warning on “Women’s Centers” versus Vetted Abortion Providers: This flyer lists trusted abortion care providers who understand and respect bodily autonomy. Be careful when seeking abortion care elsewhere, as places that are called “Women’s Centers” may be clinics that do not support abortion and exclusively offer counseling to avoid abortion.

- For help locating more vetted abortion providers not listed here, visit <https://www.ineedana.com/>

Financial Assistance

Financial may be available through these organizations:

1. National Abortion Federation (NAF): (800) 772-9100
